PORTFOLIO PROJECTS

Budget Buddy

Constructed a graphical user interface that allows the user to establish budgets and keep track of earnings, spending, and savings. Just log in using whatever username or password you want, create a custom security question, and enter your own personal Budget Buddy dashboard to begin tracking your finances.

View [Source Code](#)

Arithmetic Master

A graphical user interface developed to allow anyone to train their mental arithmetic skills. With this software, one can train their ability to perform mental addition, subtraction, multiplication, and division.

Cosmic Omega

Inspired by vintage space shooters, this simplistic game was produced to be an entertaining little diversion. In this game, your goal is to steer your ship through an army of adversary ships. Avoid their laser rounds, fire back, and keep advancing onward!
